About Me

I am a second-year BTech Computer Science student with a strong passion for problem-solving and data analytics. I have hands-on experience in programming, data visualization, and cybersecurity, actively participating in tech-driven projects and competitions. Beyond academics, I am a dedicated dancer with state and national-level accolades and an avid basketball player.

Skills

- PYTHON
- C++
- MYSQL
- Database Management Systems
- JAVA
- MS office
- Marketing Strategy
- Leadership
- Communication

Education

- Bachelor of computer science and engineering **2023 Present**
VIT BHOPAL UNIVERSITY
CGPA - 8.01
- Higher Secondary Certificate **2023**
DELHI PUBLIC SCHOOL MEERUT ROAD GHAZIABAD
PERCENTAGE - 71.2%
- Secondary School Certificate **2021**
DELHI PUBLIC SCHOOL MEERUT ROAD GHAZIABAD
PERCENTAGE - 90.4%

Experience

- Data Science Intern | Codtech IT Solutions **2024 15 may-15 june**
Successfully completed 5 projects in this internship and uploaded on github
- Marketing and R&D | TravelYatri **2023 Present**
Created and managed social media content for platforms like Instagram, Twitter, and Facebook.
Organized promotional events to generate leads and attract new customers.
Supported all aspects of product launches, including promotion and marketing strategies.

Languages

- English
- Hindi
- French.

Certifications

- Data Visualisation with Tata on Forage **4th February 2025**
- Learn Ethical Hacking From Scratch 2024 **January 2025**
Udemy | Instructor: Zaid Sabih Al Quraishi, zSecurity
Gained hands-on experience in penetration testing, network security, and ethical hacking techniques through a comprehensive cybersecurity course.
- Eureka Zonal Round – Top 600 **November 2024**
E-Cell, IIT Bombay | Startup Competition
Achieved Top 600 out of 25,000 registrations in Eureka by E-Cell, IIT Bombay, showcasing innovation and dedication in entrepreneurship.
- Research Paper Publication – IEEE (ICDCC-2024) **December 2024**
Title: "Enhancing Object Detection Using Information Theory and Network Coding"
Published in an IEEE conference and indexed in Google Scholar.
Proposed a novel approach integrating Information Theory and Network Coding, achieving 72.4% accuracy and an F1-score of 76.1% using SIFT, PCA, and RLNC in dynamic environments.
- International Workshop on Optimization & ML **Oct 10-12, 2024**
Attended a three-day workshop on optimization techniques, machine learning models, and real-world data applications, sponsored by MPCST & IEEE MP Section.
- 2023, 2024**
HackerRank Problem Solving (Basic & Intermediate) and Python (Basic & Intermediate) & Java – Successfully completed Python programming courses.
Python Essentials – Vityarthi – Completed under the guidance of VIT Bhopal.
MATLAB Onramp – Gained foundational proficiency in MATLAB.
